

Information to the European standards and directives

We hereby declare that the electromagnetic components and solenoids, as part of our product range, are in accordance to machine Directive 2006/42/EC of the European Union (EU) components. We point out that commissioning is prohibited until it is determined that the machine, in which this components are to be installed, complies too such machine directive.

Furthermore in compliance to machine Directive 2006/42/EC all products of ISLIKER MAGNETE **do not require any CE mark**, as they are assigned to the category of partly completed machinery.

All our products comply with the following standards and directives.

- DIN VDE 0580 (Electromagnetic devices and component, general specifications)
- Low Voltage Directive 2014/35/EC
- DIN EN 60529 (Degrees of protection, IP-Code)

The adherence to the EMC Directive 2014/30/EC is in the responsibility of the user of our products as well as for the operation foreseen power supply unit, control or switch gear.

Regarding on the present environmental requirements, all our products comply the restriction of the use of hazardous substances according to Directive 2011/65/EC of 8 June 2011 and delegated Directive 2015/863 of 31st March 2015 where it applies (RoHS II + III). We meet these requirements since their introduction in 2006.

According to REACH Regulation (no. 1907/2006) we commit to match all internal used substances with the candidate list of the European Chemical Agency (ECHA). On demand we will provide this information to our customers.

Deviations can relate to customized products which find use in a specific application.
